| Foreword .....                          | V   |
| Introduction and Acknowledgements ..... | VI  |
| Statements of Partners .....            | VIII  |
| Index of Tables .....                   | XIII  |
| Index of Figures .....                  | XV  |
| Index of Abbreviations .....            | XVII  |
| <b>PART I</b>                           | <b>In a time of increasing concern, the world still seems to be in order – Management summary and trend discussion</b> .....      |
| I.1                                     | Logistics megatrends review 2020+ .....   |
| I.2                                     | Recent operational challenges and future trends .....   |
| I.3                                     | Lack of skilled labor leads to tight capacities.....  |
| I.4                                     | High level topic digitalization implies investments above 2 percent of turnover.....  |
| I.5                                     | Start-ups pave the way to »New logistics« .....   |
| I.6                                     | Logistics and politics – not yet a team.....  |
| I.7                                     | Feature by KPMG- Global M&A environment in Transport & Logistics .....  |
| I.8                                     | Feature by Transporeon - 2019 European Road Transportation Survey. .  |
| I.9                                     | Feature by Commerzbank - Going the extra mile supported by ...<br>CommerzFactoring .....  |
| I.10                                    | Feature by AEB SE - New Tools for New Work .....  |
| <b>PART II</b>                          | <b>Demarcation of the logistics market – the subject of the »TOP 100« survey</b> .....  |
| II.1                                    | »What« – Definition of logistics and the demarcation of logistics markets .....   |
| II.2                                    | »Where« – Geographical boundaries of the survey.....  |
| II.3                                    | »When« – Time period and data considered .....  |
| <b>PART III</b>                         | <b>Measuring the total cost of the European business logistics system</b> .....   |
| III.1                                   | The measurement of the expenditure of the total logistics sector in Europe for 2018 results in a volume of € 1,120 bn. ....       |
| III.2                                   | How to calculate the logistics volume of the »Europe of 30« .....   |
| III.2.1                                 | The first approach to measuring the cost of the national business logistics system: from freight tonnage to »PPP« logistics ..... |
| III.2.2                                 | A second approach: analyzing the intensity of demand of the industries in Europe.....   |
| III.2.3                                 | Interim result: A »robust« estimate of the total volume of the logistics sector of »Europe of 30« .....                           |
| III.2.4                                 | From € 1,120 bn. logistics volume for the whole of »Europe of 30« to a split for the national logistics volumes per country ..... |
| III.3                                   | Logistics expenses forecast for Europe and selected countries.....  |
| III.4                                   | A further differentiation: the sizes of the nine logistics segments in Europe .....   |

|                   |   |     |
|-------------------|---|-----|
| <b>PART IV</b>    | <b>Profiles of nine logistics segments under observation</b> . . . . .          | 55  |
| IV.1              | Bulk Logistics . . . . .  | 59  |
| IV.2              | General Truckload/Full Carload (FTL) . . . . .                                  | 65  |
| IV.3              | Groupage and general Less-than-Truckload (LTL) . . . . .                        | 71  |
| IV.4              | Specialized Transportation . . . . .  | 78  |
| IV.5              | CEP – Courier, Express and Parcel Services . . . . .                            | 84  |
| IV.6              | Contract Logistics . . . . .  | 91  |
| IV.7              | General Warehousing and Terminal Operations . . . . .                           | 99  |
| IV.8              | Ocean Cargo . . . . .   | 104 |
| IV.9              | Air Freight . . . . .   | 109 |
| <b>PART V</b>     | <b>The »TOP 100«</b> . . . . .  | 113 |
| V.1               | The top list: conventions and commentaries . . . . .                            | 113 |
| V.2               | The »Top 100« in Europe . . . . .   | 113 |
| <b>Appendix 1</b> | <b>The ABC of company profiles of the European »TOP 100«</b> . . . . .          | 121 |
| <b>Appendix 2</b> | <b>Terms, data bases, survey methods and limits of predictability</b> . . . . . | 323 |
| <b>Appendix 3</b> | <b>Questionnaire</b> . . . . .  | 331 |
| <b>Appendix 4</b> | <b>References of »TOP 100« studies</b> . . . . .                                | 337 |
